## EQ Gifting Program Overview

The EQ Gifting program is designed as a standard ordering module for retail owners of a Lucidiom APM version 6.0+ kiosks and Photo Finale 6.0+ websites. Currently, single image photo gift products are available.

*We've teamed up with the industry's best to bring you hundreds of photo gifting products.*

It works like this: 1. **SELL.** Offer your customers hundreds of photo gift product choices conveniently from your in-store APM kiosk or your online Photo Finale website. There is something for everyone! 2. **MANAGE.** Lucidiom's EQ Gift Tracker will ensure that your orders are routed, produced, and return-shipped to your store automatically! 3. **PROFIT.** Lucidiom manages the suppliers and monthly invoicing so you don't have to!

An internet connection is required for each APM kiosk running EQ Gifting. The Retailer is responsible for supply and management of local internet connections. Retailers must complete the EQ Gifting Application before being granted licensed access to the EQ Gifting product array.

EQ Gifting product gross margins may vary by product, region, and retail selling price. Shipping costs vary by location and will be an additional charge per product or order. EQ Gifting orders will be invoiced monthly by Lucidiom. Customer accounts must remain in good standing to maintain subscription. All terms subject to change without notice.

## Technical Support

The Lucidiom Support Desk is open M-F, 8am-8pm EST.

Please note that on-site installation or configuration fees may apply.
