The purpose of this document is to provide a synopsis of current wholesale pricing, estimated turnaround times and shipping costs for EQ Gifting products. Please refer to publication dating to ensure that you have the most recent information available. All information is subject to change and supersedes previous publications.

## EQ Gifting Program Overview

The EQ Gifting program is designed as a standard ordering module for retail owners of a Lucidiom APM version 7.0+ kiosks. Currently, single image photo gift products are available as standard. And now, printed products are available optionally.

*We've teamed up with the industry's best to bring you hundreds of photo gifting products.*

It works like this: 1. **SELL.** Offer your customers hundreds of photo gift product choices conveniently from your in-store APM kiosk or your online Photo Finale website. There is something for everyone! 2. **MANAGE.** Lucidiom's EQ Gift Tracker will ensure that your orders are routed, produced, and return-shipped to your store automatically! 3. **PROFIT.** Lucidiom manages the suppliers and monthly invoicing so you don't have to!

An internet connection is required for each APM kiosk running EQ Gifting. The Retailer is responsible for supply and management of local internet connections. Retailers must complete the EQ Gifting Application before being granted licensed access to the EQ Gifting product array.

EQ Gifting product gross margins may vary by product, region, and retail selling price. Shipping costs vary by location and will be an additional charge per product or order. EQ Gifting orders will be invoiced monthly by Lucidiom. Customer accounts must remain in good standing to maintain subscription. All terms subject to change without notice.

## Technical Support

The Lucidiom Support Desk is open M-F, 8am-8pm EST.

In your email, please include: the product you have a problem with, the APM ID and if that APM is online, a description of the issue and contact information. Send email to: [support@lucidiom.com](mailto:support@lucidiom.com)

**Via Phone:** Call **703-564-3400, option 5.** If a support rep is not available to take your call, please leave a detailed message with the information outlined above.

Please note that on-site installation or configuration fees may apply.

## How to set Shipping Settings

Retailers are able to determine shipping settings within the APM kiosk Setup Wizard. Retailers can allow customers to ship their order to their home, or pickup in store. If picking up in store, three options are available: 1. Do not charge customers for in-store delivery; 2. Charge customers the same rate per product as with ship to home; 3. Charge the customer a flat handling fee.

1. Choose APM Add-on Components
2. Select Gift Products
3. Apply the in-store delivery policy

## Customer Order Tracking

Retailers can track customer orders online via the EQ Gift Tracker portal. A valid email address and password is required to access your store account and customer orders. [www.eqgifttracker.com](http://www.eqgifttracker.com)

The screenshot shows the 'Portal : Search' interface. At the top, there is a navigation bar with links: HOME, SEARCH, ORDER SUMMARY, USERS, HELP, LOGOUT. Below this is a search form with the instruction 'Enter criteria then click 'Search''. The form contains several input fields and dropdown menus:
