# LAB/Print 50 advanced invoice options:

The advanced invoice options are found in the software here: Settings > Order Management > Invoicing

The invoice files are html so can be customized.   More on how to customize the content of the invoices here: Lab 50 Invoice Customizations and Macros

How to configure an advanced invoice:

1) Navigate to Settings > Order Management > Invoicing.
2) Select the Advanced option and then 'add printer'

3) Specify the location of the invoice file you intend to use. In most cases that will be here: **C:\Program Files (x86)\Photo Finale Print 50\Resources\en-US\Invoice**

Our default install includes three different preconfigured files that can be used:
a) Invoice - Our standard invoice that includes order details and pricing information. Found here: **C:\Program Files (x86)\Photo Finale Print 50\Resources\en-US\Invoice**

b) Product Label - a condensed invoice intended for a label printer. Can be configured to print a separate label for each product included in the order. Includes customer name, order number and lists one of the product sizes. Found here: **C:\Program Files (x86)\Photo Finale Print 50\Resources\en-US\ProductLabel**

c) Shipping Label - Intended to be used for ship-to-home orders and printed on a label printer. Label will include the shipping address entered by the customer. Found here: **C:\Program Files (x86)\Photo Finale Print 50\Resources\en-US\ShippingLabel**

Name

InvoiceSettingDialog

○ Create copy of existing invoice folder: InvoiceSettingDialog - (Default)

◉ Specify existing invoice folder path:

C:\Program Files (x86)\Photo Finale Print 50\Resources\en-US\Invoice
