

Current Software Versions

The most recent software installers for independent retailers are given in the below charts. Please be advised that these are only used for independent stores, and this list does not reflect the most recent versions for other clients such as large OEMS like Walgreens, Ritz, Jessops, and others.

Installation Note:

Before installing, make sure to read the release notes, installation flowchart and checklist. Also, to ensure proper installation, make sure to download all applicable content installers, DVD installers, etc. as these are necessary to ensure full functionality.

APM Software	Notes
APM 7.6.0.14 Updater	Used to update from any version of APM 6.0 or 7.0 software.
