Scanning without Prints and CDs Workflow

Here is how you can get the scanning workflow to run without the Prints and CDs workflow or the Print to Print workflow buttons showing.

1. Go to **C:\APM\Chameleon\english** and look for ***Apm_start.htm***.
2. Right-click on the file and select to open it with Notepad.
3. Locate "*gScanningViaOtherWorkflowsOnly*" within the file, and change the value from *false* to *true*.
4. Close the file and select to save the settings when prompted.

****Note:** If you apply any software updates this setting will get overwritten and you will need to reapply it.
