

# Payment Options, Shopping Cart Settings, Service Fee and Rush Fee

After selecting a Fulfillment Option (1, 2, or 3) from the click on the **Payment Settings** option. Each setting applies only to the fulfillment option you have clicked into.

## Payment Type

Options include cash, credit, cash and credit, merchant services, or none. If none is selected, no payment will be taken, and the payment collection screen will be bypassed. The credit option requires a card swiper to be present on the kiosk and Lab 50 to process the transaction and an additional Merchant Services license to be purchased.

## Shopping Cart

The Shopping Cart feature allows customers to combine multiple products into one simple order. This allows customers to add, edit or remove products they have ordered prior to submitting the order. You can turn the option on or off, and you can set the number of items allowed. Max is 10.

## Service Fee

- **Per-order shipping charge:** Allows you to add a shipping fee to each order that is placed in the selected fulfillment.
- **Per-order service fee:** Allows you to set a service fee for each order that is placed in the selected fulfillment.

## Rush Order Settings

If you have the ability to expedite orders, you can set the fee, the label (if you want to call it something other than rush, for example: 1 hour prints or next day service), You can adjust what shows on the label as well as a description that explains to the user how your rush service works. You can also define special text to appear on the top of the receipt to help your staff easily identify Rush orders. Use the checkbox to turn on/off this feature.

What this screen looks like:

The screenshot shows the 'SetupWizard' interface with a left sidebar and a main content area. The sidebar has sections for 'Settings' (Main Options, Order Settings, Payment Settings), 'Kiosk Text Settings' (Fulfillment Title, Fulfillment Description, Order Completion Text), 'Products' (a list of various items like Posters, Banners, Flip Books, etc.), 'Kiosk Settings', and 'Fulfillment' (Fulfillment #1 (Express), #2 (Pick Up), #3 (Mail)). The main content area is titled 'Shopping Cart & Payment Settings' and contains several sections: 'Payment Type' with a dropdown set to 'Cash'; 'Shopping Cart' with a checked 'Enable Shopping Cart for this fulfillment' and a 'Maximum number of items in cart per order' dropdown set to '10'; 'Service Fee' with checkboxes for 'Per-Order shipping charge' and 'Per-Order service fee', both set to '0.00'; 'Rush Order Settings' with a checked 'Offer Rush Order Option' and fields for 'Rush Fee' (5.00), 'Rush Order Fee Label' (Rush Order), 'Receipt Label' (\*\*\* RUSH PROCESSING \*\*\*), and 'Description' (Expedite lab processing time and move my order to the top of the queue).
