

APM Kiosks and RAW Files

RAW Image Support. The kiosk supports the latest RAW image formats from Adobe, Canon, Nikon, Sony, Olympus, Pentax, Kodak, Konica Minolta, Leica, Panasonic, Samsung and more – over 250 models in total.

- This was updated in APM v9.0 (Aug 2014), see [release notes](#)
- Note: kiosk must be running on Windows Vista or above

To enable/disable RAW file support, go into the **Setup Wizard > Kiosk Settings > Devices**, and then check/uncheck the the box in the top right corner to Enable/Disable RAW files.
